WARNING

Motorsport is an intrinsically dangerous activity that can result in serious or fatal injuries. This garment provides protection for a specific body part for a limited period of time in controlled test conditions, according to FIA standard 8856-2000 and or SFI Foundation. Neither this garment nor any other device can provide total protection against potential injuries in the event of a collision or a fire. To avoid these risks, do not engage in motorsports.

WARNING Read the user's manual before using this garment. Strictly follow usage and maintenance instructions provided in the manual and on this garment labels. Failure to do so may reduce the effectiveness of this garment and result in an increased risk of serious or fatal injuries in the event of a fire. Improper use or maintenance voids the warranty and relieves FreeM USA of all responsibility towards the user.

DISCLAIMER

MOTORSPORTS ARE DANGEROUS. T**HE USER ASSUMES ALL RISKS**. These products are sold without warranty expressed or implied. No warranty or representation is made as to any product's ability to protect the user from any injury or death. The user, upon use of these products agrees to hold manufacturer, distributor, and their respective owners employees, agents and representatives harmless. It is the user's responsibility to become familiar with all available information concerning the correct use, care and limitations of these products. If you are uncertain of the correct use or limitations of the products, do not use them. The manufacturer, the distributor and their respective owners, employees, agents and representatives are not responsible or liable for errors or omissions.

BY USE OF THESE PRODUCTS, THE USER ACKNOWLEDGES:

- That personal safety products are only part of a complete safety system that includes the vehicle, the race track and the prevailing conditions at the time of use.
- That personal safety products are not designed to provide the same level of performance or protection throughout the particular product. Different parts or areas of a product may provide less protection even though they may appear the same.
- That personal safety products needs to be inspected before each use and should be replaced after any evidence of wear, exposure to chemicals, excessive heat or any unusual condition.
